

Having a HOME has never meant more.

6 Days to go — Donate Now

Friend,

During this challenging year, our homes became a safe haven more than ever before. But imagine if one day your house, a place of comfort and stability, was suddenly destroyed? That's what happened to Jocelyn. [Her story shows why your gift is so important.](#)

She was pregnant when Hurricane Harvey flooded her trailer. Jocelyn, her daughter, parents and nephew lost almost everything they owned. But thanks to supporters like you, they were able to build a better, more stable home that will last for generations. And just in time before the new baby was born!

"This Thanksgiving is so meaningful to my family because we were given the opportunity to share our story of Hope, Gratitude, and Paying it Forward to another Habitat family."

— Jocelyn

Today, I'm asking you to think about what home means to you and then make a special Thanksgiving gift to help another family build a safe, affordable place to live.

Your donation will help a mother like Jocelyn build a Habitat home where children can grow up and have brighter futures. This holiday, as we're all counting our blessings, we invite you to be a blessing for a family in need of independence and strength.

Make your generous Thanksgiving gift today! Thank you.

Sincerely,

Jonathan T.M. Reckford
Chief Executive Officer
